In Our Prayers: This upcoming week please add these
prayer requests to your daily prayer time.

Say a
prayer
for...

† Thanks for living in a
country where we can celebrate
Christmas freely and without fear
of punishment.

† Thanks for our everyday
blessings of food, clothes, home, family.

† For hearts that yearn for God's Word.

† For the many people impacted by the recent severe
storms all around the country.

† For those who are ill, especially Pastor Loeslie,
Diane's husband, sister-in-law, and cousin, Mrs.
Olsen's brother-in-law, and Ms. Holz's father.

† For those struggling with loneliness during the holiday
season.

† For the homeless and unemployed.

† For those serving in the military, especially those who
must be away from their families.

† For students and staff as we strive to be disciples sent
by Jesus to do His will wherever we are.

Chapel Update:

Our chapel offerings for this quarter have reached \$235.89. Each quarter the total amount is sent to the family of Pastor Loeslie to help them in any way they choose.

Save the date:

Wednesday, January 11 at 7:00 p.m. for the next Parent Connection Workshop. The topic will be Foundation and Connection in parenting our children. These topics coordinate with the program the teachers are working through at their inservices.

The 5th and 6th graders will be making kaleidoscopes as a STEAM project the week of Dec. 19, We will need

lots of random "scrap" clear, thick plastic to cut into circles. If any families have transparent grocery store containers, like the kinds that typically hold baked goods or berries, could you send those to school with your child? Also, if anyone has small,

translucent, colorful beads they'd be willing to donate, those would be helpful too! All items can be brought to the office or to Mrs. Loder's science classroom. Thanks!"

Seventh and Eighth graders used coat hangers to create bodies for the dried apple heads they had carved earlier. Then they fashioned clothing for their person.

Seventh and Eighth graders

Also made luminaries by creating a pattern of holes with hammer and nail on a tin can filled with ice to keep it firm while they worked.
